RE: **EHCSS Menthol Study**

Valerie:

I have enclosed for your final review a copy of the Protocol and ICF for the EHCSS Menthol Study. The Law Department comments as well as the consolidated comments from Arnold & Porter are indicated on the respective drafts.

It is suggested that for future Clinical Studies, that WSA develop a "checklist" for future ICF's so that all CRO's use an ICF form that meets your needs.

Regards,
